The Rinsery service

Events can choose the level of service that they would like:

Self-Service: Collect and return cups and bowls yourself (use 'Hire Cost' as a guide), our team will wash and sanitise everything for the next use.

Full: Reusable items will be delivered to the event, collected and sanitised for the next use by our team. The Rinsery will set up return bins and signage around the event to encourage users to return their items before leaving. This is quoted separately and depends on event type, size, duration and location.

Event organisers and vendors will be responsible for informing their customers about the returnable items and giving the option for a takeaway container if needed. Marketing before and during the event around reuse and returns helps event goers to do the right thing and return their cups and bowls.

Waste Warriors and return bins

The Waste Warriors Service – Event Recycling. Combine reuse with our Waste Warriors and you could deliver a truly ZERO WASTE event!

Our Waste Warriors will set up waste stations with clear signage, direct people to the correct bins, remove contamination, weigh and record everything collected and dispose of it correctly.

On Site Dishwashing

For large events we can deliver our 'Wash Against Waste' trailer and wash up on site. We can provide full training for your staff or volunteers to use the equipment or provide our own staff to wash up for you. Prices starting at: \$250 per day.
